# *IN MEMORIAM*

## *Roy T. Normington*

We seniors take pride in having had Mr. Normington as our superintendent. We remember him as an ardent supporter, not only of our athletic teams, but also of all school activities. We remember Mr. Normington as a man of natural dignity and poise who always had time for a friendly word. We, like many who have been graduated before us, will often recall and acknowledge the wisdom of his words, --"You make the record, we keep it."

The faculty also remembers Mr. Normington. They recall his constant help and faithful backing. They recollect Mr. Normington's enjoyment of home and family life that stimulated a sincere personal interest in each faculty member. They will never forget Mr. Normington's avid interest in books which made him a well-informed and interesting conversationalist.

The community remembers Mr. Normington's interest and success in expanding our school system, for they were well aware of his participation in activities which led to the betterment of Reedsburg and surrounding areas.

Mr. Normington's death was deeply felt by all, but mostly by those who were aware of his tireless activity to improve our school system as well as our community.

## *F o r e w o r d*

With a grateful glance backward and a steady gaze forward, we the Senior Class, present the 1960 Gleaner. Many of you, when you see our photographs, will be astonished at how we have grown. Should you compare our present pictures with those of four years ago, you would notice how our physical appearance has changed. Beaming, hoydenish faces of four years ago now hint of true womanly charm. Freshmen striplings with boyish faces now sport more manly frames and masculine features.

Who among you, readers, would say that our growth has ended here, with these outward characteristics? Look closely, and observe that there has been much more to our development than mere external changes. Look at our course of study and our teachers; both have fanned the spark of knowledge into flame. Look at our achievements, stepping-stones to future success. Look at us ourselves-our hopes, our joys, our ways-our everyday life. Then let this book speak for us, to show you all how we have grown, grown in mind even more than in body.

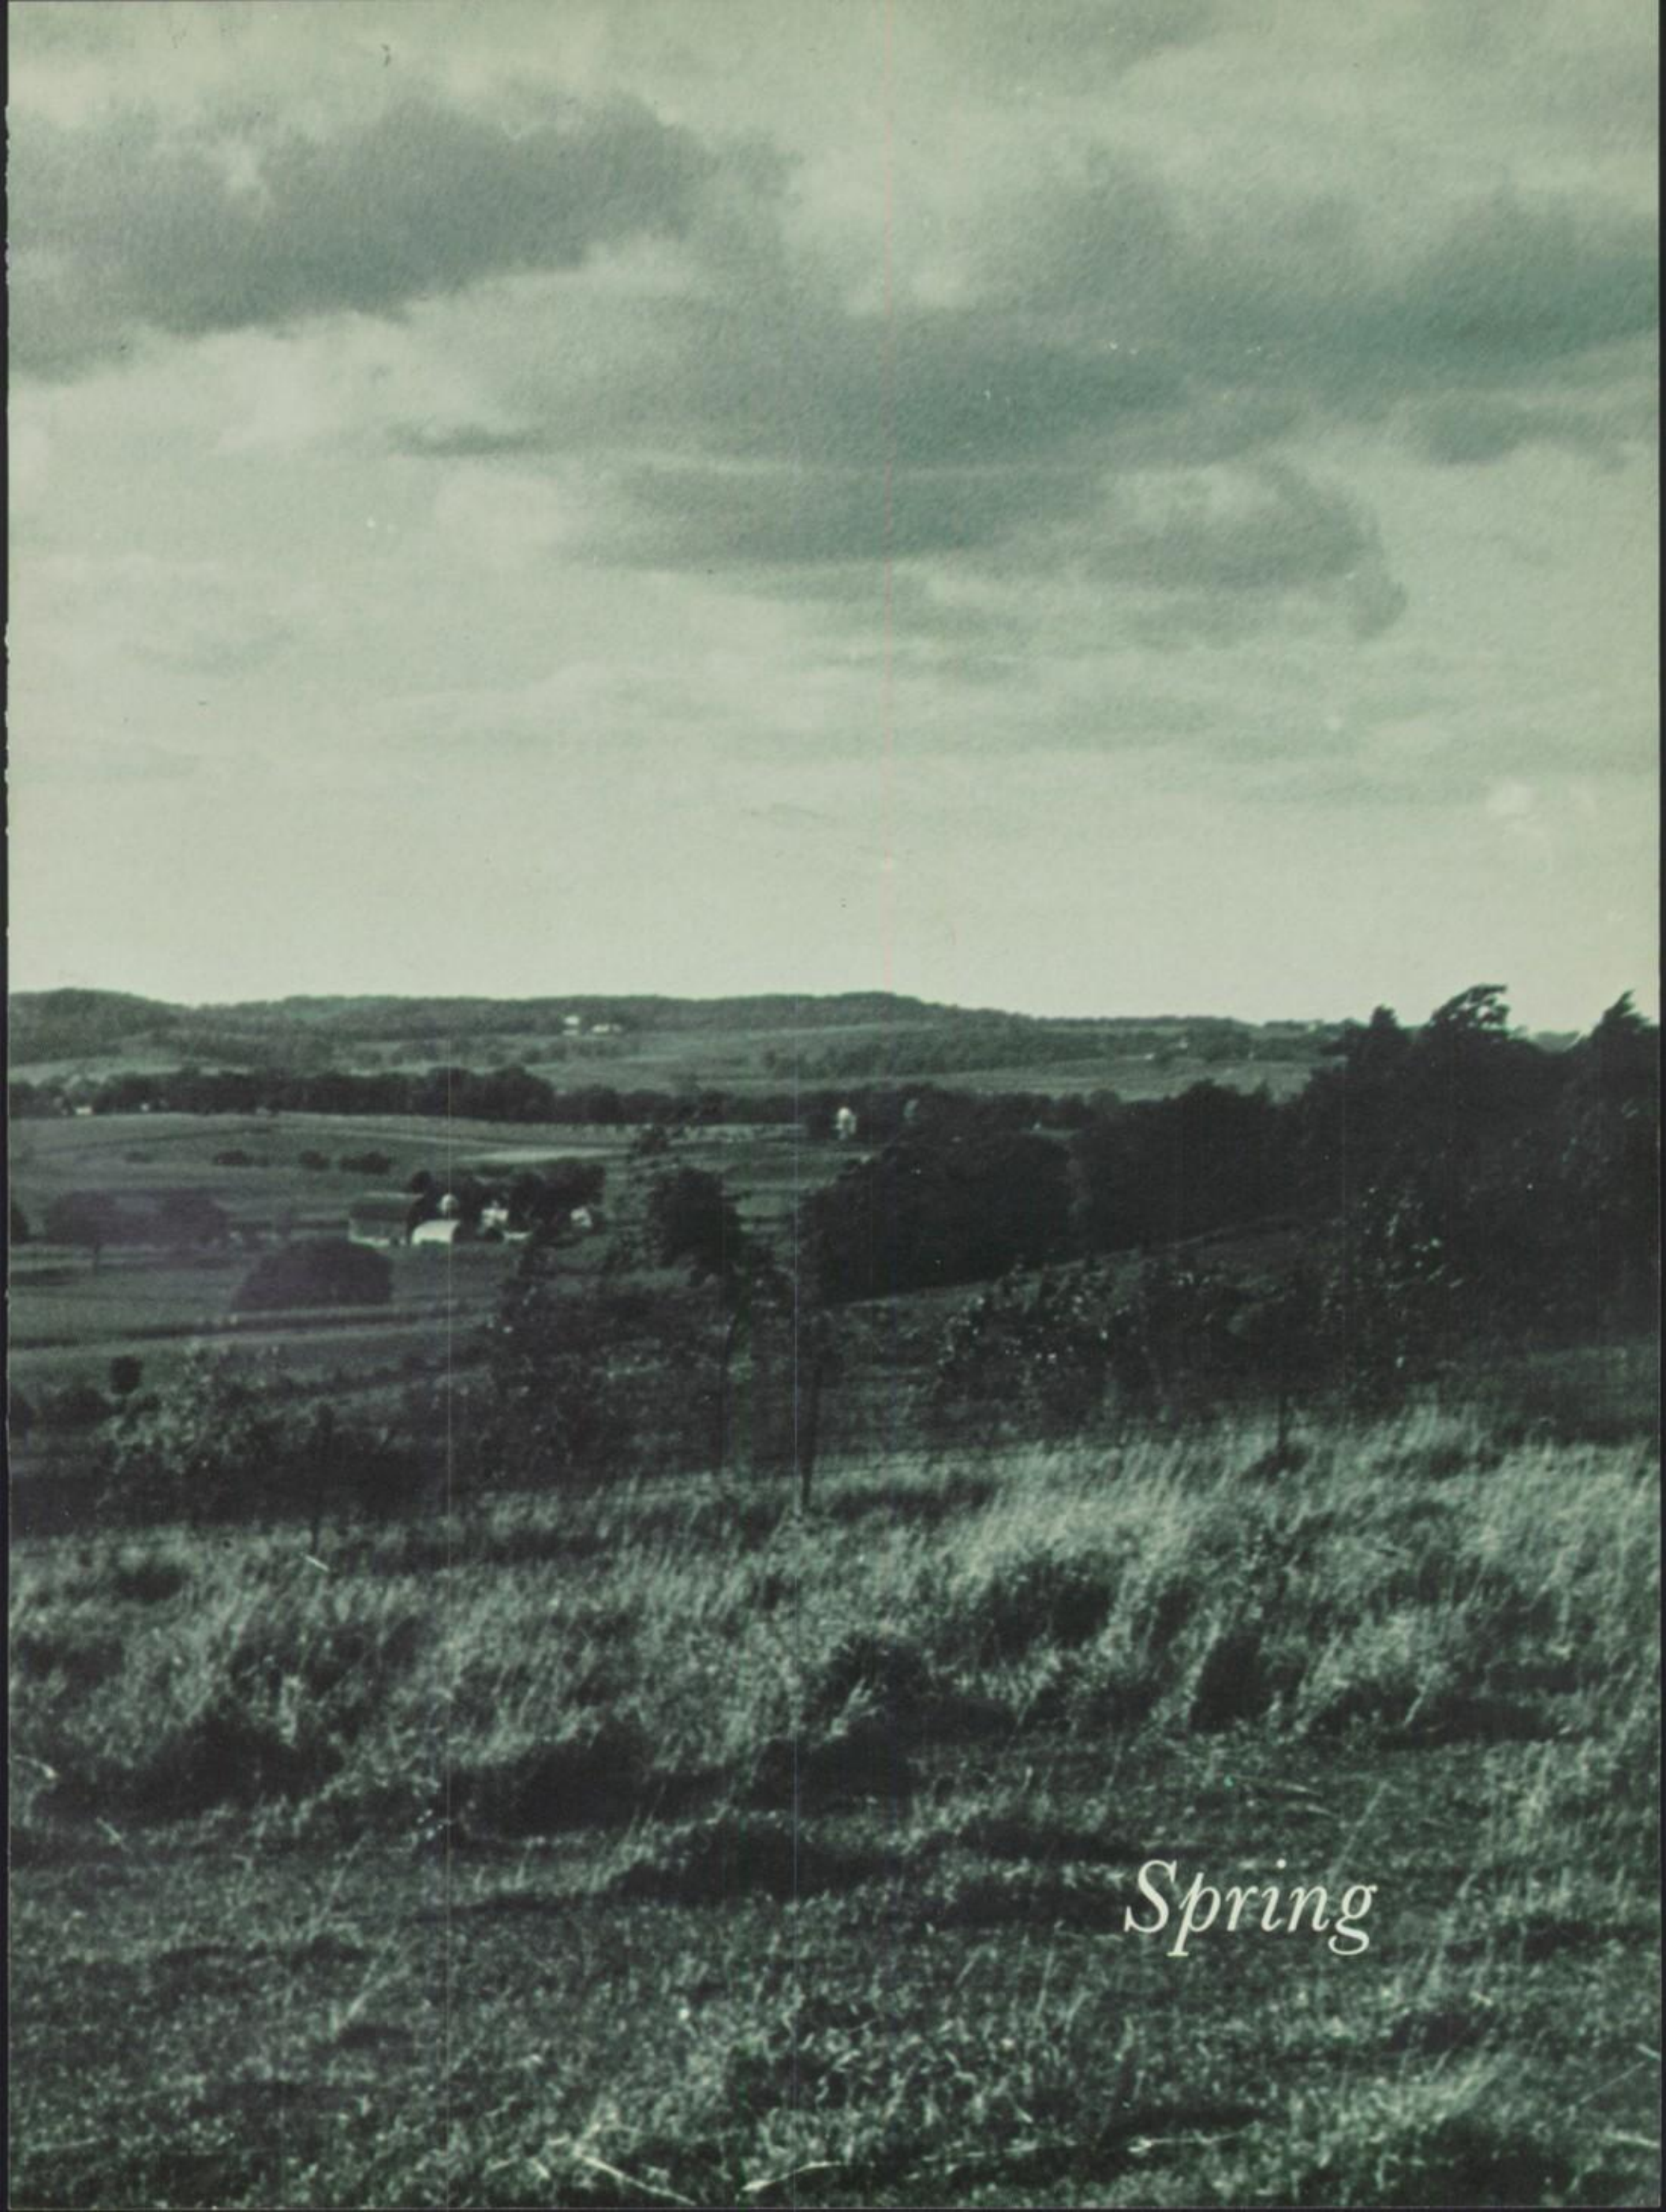

Thanks to our growth in these four years our feet are set firmly on the ground. It is our hope that we may keep them there and continue to develop responsible citizens who will make substantial contributions to the welfare of our fellow men.

## *Ever Mindful of Our Welfare*

LAWRENCE OLSON  
B.A., M.A.; Luther College, University of Iowa

Dear Seniors,

On July 10, 1960, we lost a true friend in the death of Mr. Normington. As has been written and said many times, he was a man dearly loved by his family and friends, and respected and admired as an educator. On numerous occasions I have been with educators and lay people who have turned to him with full confidence for his leadership.

Looking back through the Gleaners, we find that he made statements of good advice to seniors as "Without education our nation would decline and the individual would fail of his destiny"; "Carry on the creative thinking and courageous action"; "You have been very fortunate to have the opportunity for education"; "It is the individual that counts, and the individual is the master of his own destiny." I hope that you will want to maintain the high principles and standards of achievement in which he believed.

After your graduation I hope that you will continue to take an active interest in Webb High School and that you will come and visit us often.

My sincere best wishes to each member of the class,

*Lawrence Olson*

This world is constantly being employed from saltmines to department stores. In fact, in our school we have been building a department store, so to speak. Let's walk in and take a look at it. We started from nothing, you know, and we've branched out more each year. First department-industrial arts. Second department-agriculture. Third department-automechanics. Fourth department, commercial course. The fifth department resonates with the rumblings of scores of busy typewriters-and so on all the way to the last department and drivers education.

# The Finishing Touch to Our Mental and Physical Growth

There is a certain embryonic desire in almost every human being to attain a special type of perfection - a perfection that satisfies his soul as nothing else can. Art, music, and athletics give us the opportunity to satisfy this special desire. In the days when such organizations were few and far between, it was difficult to obtain any instruction in the fine arts, or to have a well-balanced program to keep our bodies in tip-top shape. Thanks to the people who are willing to devote their time to furthering these causes, our curriculum contains more instruction in the fine arts and physical education each year. From swallow tails to sweat-suits, we are constantly striving to grow "just a little bit better."

# Social Studies and Sciences Solve Old Mysteries and Explore New Problems

Why? This is the eternal question of both the natural and the social scientist, and man and his environment certainly pose enough questions to provoke "whys" and "wherefores" for countless centuries. The demand for scientists needs no mention. We all know how great it is. Science has revolutionized our lives, and in so doing, it has created an irreplaceable position for itself in our way of life; from mathematic's the language of science, to the com-

# Language, the Cornerstone of Civilization

Chaos. That is what our world would be without language. If no one could speak or write, our homes would be caves in the hills, our pencils would be burly clubs, and our only way of expressing ourselves to others would be to clout them over the head. Add language to our lives and we name a keen insight into the history, character, thought, and accomplishments of our fellow-man, a sure way to express ourselves in all studies throughout our lives.

And our language courses, too, are in keeping with our cosmopolitan age. Besides basic English courses, we have Latin, Spanish, and Speech, plus a fourth year of English. Forensics and play production have been added as activities, and just this year we welcomed a new member to our multilingual family-French.

## *In Appreciation*

As freshmen, we first met our class advisor, Mr. Hafner. In English 1 we soon learned to know Mr. Hafner as an apt teacher and as a person who was interested in us as individuals. We remember his help on our Homecoming floats, our Loyalty decorations, and on our Junior Prom. We, the students of the Senior class, are grateful to Mr. Hafner for the inspiration and guidance he has given us; and we wish him much success always.

# SENIOR CLASS HISTORY

In September, 1957, our class first passed through the doors of Webb High School. Ours was the first class to spend its entire four years in the completed building, and we believe that we had a hand in giving our Alma Mater the excellent reputation it enjoys.

Perhaps initiation was the most outstanding event of our freshman year, but in reality every day was vital to us. We were becoming accustomed to the way of life that would take us from the closing doors of childhood, along the teenage road toward maturity, graduation, and vocation. For our class officials we chose Dave Davis, president; Pat Miles, vice-president; and Sharon Piske, secretary-treasurer.

In our sophomore year a surge of school spirit culminated in our winning first prize for our homecoming float. Our class officers were Pat Miles, president; Dave Davis, vice-president; and Janet Mortimer, secretary-treasurer.

As juniors we assumed the responsibilities of upperclassmen, and took leading roles in many activities. To Badger Girls' and Boys' State we elected Pat Miles, Charlie Phillips, and Jerry Tietje. This was the year of coveted class rings and of the gala event of our lives, the Junior Prom. Queen Beverly Templin and King Tom Grover reigned beneath a rising sun in the setting of "Sayonara." Our class president was Charlie Phillips; vice-president, Tony Held; and secretary-treasurer, Janet Mortimer.

As seniors, most of us have come a long way from being flippant freshmen. We still enjoy good times and "live it up" on occasion; but we are now ready to cope with whatever lies ahead. Wherever we go from here we always will retain memories of our closely-knit class. We will always remember the faculty and administration, and we sincerely thank them for their help and guidance. Life will take from us our high-school days, but all the precious memories pertaining to them.....these nothing can take from us.

Our senior class officers are Dick Geyman, president; Pat Miles, vice-president; and Jeanne Drea, secretary-treasurer.

We feel that we owe special gratitude to our loyal representatives from '57 to '61. They were as freshmen; Bev Templin, Tom Quinlan, and Bob Harper; as sophomores: Bev Templin, Marilyn Zietlow, and Charlie Phillips; as juniors: Bev Templin, Marilyn Zietlow and Bob Bates; as seniors: Bev Templin, Marilyn Zietlow, and Jerry Tietje.

Although Reedsburg finished third in the South Central Conference it took its fourth trip to the State meet, the last being in 1949. The team took the first step towards the State meet by winning the Wisconsin Dells Regional by defeating Wisconsin Dells, Baraboo, and Lancaster. The Beavers cinched their place at the State meet by overcoming Hillsboro, No. 4 team in the "Little 16" in an overtime 71-63, and then going on to top LaCrosse Central 70-60 in the LaCrosse sectional.

The Beavers changed coaches in mid-season, with Don Johannes long time B team coach, replacing Nick Holmes. Under their guidance, Reedsburg went into the tournament with a 75.3 offensive average and a 59.9 defensive average. The leading scorer was Jim Bohen, who won the South central scoring title with 324 points.

Organized on the basis of the Roman senate at the time of Caesar, the Romani Hodierni studies the legends, traditions, and customs of Greece and Rome through listening and doing. Games, plays, and reports further the members' understanding of Latin and its importance in everyday life. The high point of the year is the Latin Banquet, a modern party recreating a festival of ancient Rome.
